

# Easy flood protection!

IDEAL  
FOR

- Mandoors
- Garage driveways
- Underground car parks

## Flood Barrier **GSB-FG-H**

# Reliable protection!

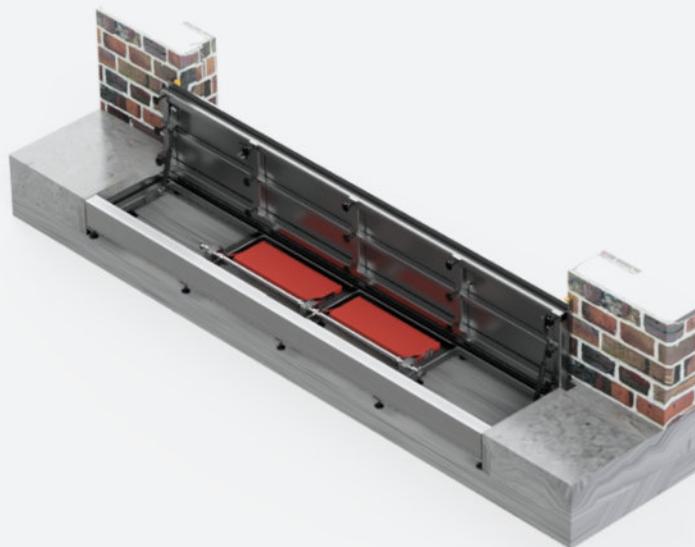

## Reliability is a matter of simplicity

The flood barrier GSB-FG-H has been designed to provide simple, reliable and cost-effective flood protection.

The system uses no air, no power, no auxiliary energy to close. It simply closes with flood water filling the sump.

The GSB-FG-H is highly durable and can accommodate day to day traffic easily.

The gasket used is temperature, UV and ozone resistant. It does not age.

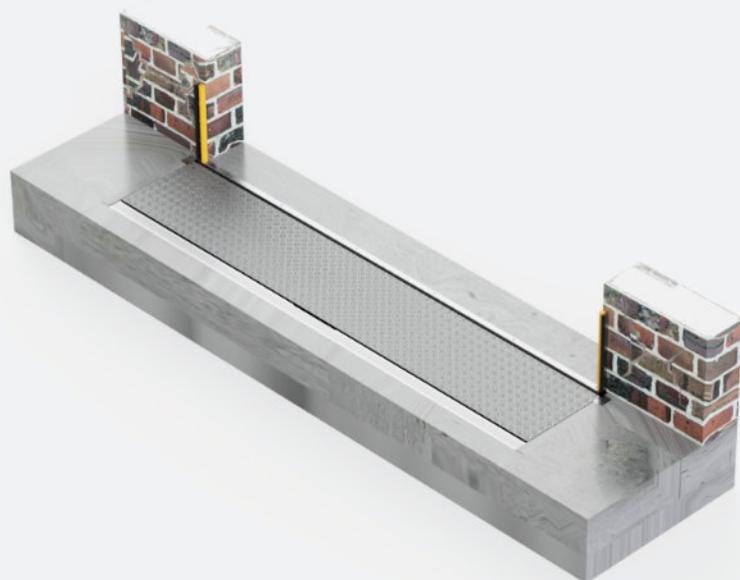

## Optimal price, quality and aesthetics

Not only does the flood barrier GSB-FG-H protect from flooding, you will hardly notice that it is there.

It has been designed to offer minimum impact on the aesthetics of buildings.

- Individual sizes to suit
- Rapid deployment
- Easy use of opening and closing
- Anti-vandalism safe
- Reliable and durable sealing gaskets
- Assembly/installation, according to your requirements
- Up to 6.5 tons axle weight capacity
- Short lead times
